## Personal Details

---

- Nationality : Nigeria
- Gender : Male

## Objective

---

Highly motivated and enthusiastic entry-level web developer with a strong foundation in front-end development. Proficient in JavaScript, TypeScript, HTML, CSS, Tailwind CSS, and familiar with modern libraries like Bootstrap and React. Passionate about creating responsive, user-friendly websites and continuously improving my skills through personal projects and online learning. Seeking a junior developer role to contribute to a dynamic team and grow as a professional.

## Experience

---

- **Freelance / Personal Projects | Remote** January 2024 - Present  
Junior Web Developer (Intern)  
Designed and developed responsive websites for small businesses using HTML, CSS, and JavaScript.  
  
Collaborated with clients to gather requirements and translate their vision into fully functional websites.  
  
Improved website performance and SEO through best practices in code optimization.  
  
Integrated APIs for dynamic functionality like form submission and data fetching.  
  
Used Git and GitHub for version control to collaborate with other developers.

## Education

---

- **National Open University of Nigeria** 2024 - in progress  
Bachelor of Computer Science

## Projects

---

- **E-commerce Website**  
Developed a fully responsive e-commerce platform using HTML, CSS, and JavaScript. Implemented user login, product filters, and shopping cart functionality.  
<https://d-future0.github.io/E-commerce/>
- **React Cocktails Search App**  
Built a React application that allows users to search for cocktail recipes by fetching data from a public API. Implemented dynamic filtering and user-friendly interfaces, ensuring responsiveness across different devices.
